

Role Specification and Task List for a Flexible Resources Assignment at the BMW IT Hub of BMW Group South Africa.

Role Title: UX/UI Designer

FIND OUT MORE ABOUT THE HUB:

The BMW IT Hub South Africa provides IT Solutions to the global BMW Group. We focus on innovation topics as well as comprehensive IT solutions such as Development and Operations for SAP, JAVA, Azure, Cloud etc.

The unique positioning as an internal partner to the BMW Group ensures collaborative partnerships internally, a deep insight into the compliance and IT Methodology processes within BMW and the ability to offer our internal BMW clients an extended warranty due to our vested interest in the success and sustainability of the BMW Group.

The track record of the Hub, speaks for itself, having successfully implemented several key IT Solutions globally for the BMW Group. Find out more [here](#).

MORE INFORMATION ABOUT THE ROLE:

Nationality	South African citizens / residents are preferred. Applicants with valid work permits will also be considered.
-------------	---

ESSENTIAL SKILLS REQUIREMENTS:

- Senior UX/UI Specialist to join our existing team of rock-solid frontend and backend developers on various initiatives.
- Sound knowledge in UI / UX and familiar with user centred design approach
- Fit for business purpose mind-set, i.e., the solutions provided must meet the business goals
- At least 2 years' worth of experience using design software such as Figma, Sketch, Axure and Adobe CC Suite.
- An understanding or proficiency in UI frameworks: AntDesign / Material UI
- Excellent communication skills and team-oriented work behaviour in a distributed team.

- Strong ability to understand and interpret Business needs and requirements with the ability to move concepts through to proposal and finally successful implementation.
- Excellent interpersonal and organizational skills with ability to communicate effectively (both verbally and written) with both technical and non-technical colleagues / users.
- Should be willing to deal with (talk to) our customers. In most cases they will be foreign customers and language barriers might exist.

WHICH QUALIFICATIONS/EXPERIENCE DO WE NEED FOR THE ROLE?

- Relevant IT Degree / Work Experience / Diploma
- 4-8 years' experience as a UX/UI designer

WHAT WILL BE YOUR ROLE AND RESPONSIBILITIES?

- If you are highly passionate about UI/UX and user centred design, are still hands-on and keen to implement front ends, are full of energy and ambition, are a great communicator and team player, this is the right position for you.
- Contribute to refinement of user stories (the user stories at the beginning of a design / development sprint), e.g., develop wireframes or other UI / UX input.
- Clarify open points possibly making proposals and/or developing a prototype for further discussion.
- Develop the frontend part of user stories, suitable for the different devices that must be supported.
- Willing to learn and apply the BMW Group Design System
- Executing workshops with customers and/or team member.
- Integrating the user needs within the product vision
- Contribute to the development of a brand shaping look and feel.
- Take part in regular Scrum/ART meetings via Teams. Daily, Planning, Estimation, Refinement, Review, Retro.
- Liaise with stakeholders and team members.
- Present results to stakeholders.

WHAT DO WE OFFER YOU?

- Great team spirit in an international team and customers all over the world
- Cutting edge global IT system landscape and processes
- Flexible working of 1960 hours in a 12-month period
- Remote / On-site work location flexibility
- Highly motivating, energetic, and fast-paced working environment
- Modern, state-of-the-art offices
- Dynamic Global Team collaboration and
- Application of the Agile Working Model Methodology
